## Where People and Nature Coexist

# Gochang, UNESCO Biosphere Reserve

Gochang, a region recognized by **UNESCO** as a Biosphere Reserve, is blessed with fertile red loam soil and a coastal climate ideal for cultivating high-quality agricultural products.

The rice produced by Hangyeol Agricultural Cooperative grows in Gochang's rich red soil, nourished by the clean sea breeze of Korea's west coast and surrounded by fields of lush barley throughout the year. It is a trusted, **premium-quality organic and pesticide-free rice**, cultivated with care in harmony with nature.

### — SAFETY —

1

Quality Grading Inspection

**Safe Food Made with the Heart of Honest Farmers**

Our rice is thoroughly tested for pesticide residues, variety, and quality standards, ensuring that every grain is safe, trustworthy, and cultivated with sincerity.

### — SAFETY —
